

Career Summary

Senior Business Development professional with 4+ years of experience. I help tech companies, startups, and digital transformation providers enter the market strategically by translating complex technical solutions into clear business value that decision-makers understand. I support the full sales cycle, from market research and opportunity identification to client meetings, proposal development, negotiation, and deal closure, with hands-on experience in B2B and government-driven projects.

EXPERIENCE

- Senior Business Development

Egypt Trust for Digital Signature and Information Security, Cairo, Egypt

Oct 2024 – Present

 - Led the development and management of a B2B and B2G sales pipeline, identifying high-value opportunities and supporting sustainable revenue growth across enterprise and government sectors.
 - Conducted strategic business meetings with prospective and existing clients to assess business needs, regulatory requirements, and digital transformation objectives, delivering tailored solutions aligned with electronic signature and information security services.
 - Owned the end-to-end sales cycle, including lead qualification, solution positioning, proposal preparation, negotiation, and contract closure, successfully closing more than 4 strategic cooperation agreements with enterprise and government partners.
 - Actively participated in the management and coordination of testing and implementation phases for signed contracts, working closely with technical teams and clients to ensure successful solution validation and readiness before go-live.
 - Collaborated with cross-functional teams (technical, legal, operations, finance, and compliance) to structure cooperation models, align contractual requirements, and ensure smooth execution across all project phases.
 - Supported partnership development and post-signing relationship management, ensuring alignment with agreed objectives, service scope, and long-term collaboration goals.
 - Monitored pipeline performance, contract progress, and client feedback, providing management insights to support decision-making and continuous improvement.
- Business Development Specialist
